

An intensive course on the Property All Risks (PAR) Policy (with a special segment on Machinery Breakdown (MB) coverage)

19-20 December 2017 @Ayana MidPlaza Hotel, Jakarta

Facilitator : Ir. Pooba Mahalingam

Programme Highlights

Most industrial or manufacturing business normally take up the Property All Risks coverage for their risks. This might extend to include Machinery Break down as well.

The coverage provided under the PAR and MB Insurance policy will be discussed in detail during this two day course. The facilitator who is an experienced engineer/trainer (with 20 over years of insurance industry experience) will share his knowledge on this subject matter during the programme. A few examples of relevant case studies will be used to highlight how the policy responds to respective industrial incidents.

Industry practice and common market considerations for these products will be presented, so as to enable the participants to appreciate the subject matter better.

Interactive learning methods will also be utilized to share the technical issues relating to this engineering class of insurance.

Key Learning Outcomes

By the end of the programme, participants will be able to:

1. **Consider** about the coverage afforded under the PAR and MB policy.
2. **Learn** relevant clauses and endorsements that may be applied under this cover.
3. **Appreciate** the different policy headings used to describe this coverage in different regions/ countries
4. **Formulate** how the claims are triggered and processed for this class of insurance.

Programme Outline

- The need for this class of insurance in the industrial and manufacturing sectors
- Consideration by underwriters for PAR and MB cover
- Related endorsements and operative clause(s) will also be addressed.
- claims examples will be used to enhance the learning process
- Active learning methods will be used to ensure a successful event
- A simple quiz will be conducted at the end of the session to verify the effectiveness of the subject understanding.

Property All Risks (PAR)

Machinery Breakdown (MB)

Trainer's Profile : Ir. Pooba Mahalingam

Our guest speaker is a professional engineer (registered with Board of Engineers, Malaysia) with over 25 years of experience in construction, insurance and loss adjusting. He is currently based in Singapore and has dealt with construction, engineering and property risks and claims for various insurance companies and reinsurers. He was previously attached to a global claims management company in Singapore and was assigned to Christchurch, New Zealand as a member of the CAT loss team handling the 2011 earthquake claims. He also managed reinsurance claims for a regional Insurance company in Singapore where he dealt with complex engineering issues.

Pooba has previous experience working with an international loss adjusting firm in Kuala Lumpur where he was responsible for mega projects risk management and claims handling. This included the following large construction risks -KLIA, KLCC, KL Tower, LRT I & II, Sprint Highway and Smart Tunnel. He also gained further regional engineering exposure when he handled assignments in Brunei, Indonesia, Myanmar, Vietnam and Hong Kong.

Our speaker has handled some high profile engineering/construction cases in the past and is a well-known presenter on project risks and claims handling procedures in the region. He is able to present both in English and Bahasa Malaysia. He also conducts training for M.I.I, S.C.I, A.I.C.L.A, IEM, BCA and other regional bodies. He is actively involved in industry activities both in Singapore and Kuala Lumpur.
